The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/691,012	Applicant(s) BUCHARDT ET AL.	
	Examiner Michael Borin	Art Unit 1631	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 34-73 are currently pending.

It appears that the Restriction requirement issued 09/12/2006 addressed claims which had been canceled by Preliminary Amendment of 10/22/2003. Therefore, the Restriction Requirement is vacated and replaced by the following:

Restriction Requirement

Restriction to one of the following inventions is required under 35 U.S.C. 121:

The inventions are directed to method of use of

a polyamide nucleic acid oligomer containing neutral amide backbone linkages which is complementary to a target nucleic acid, under conditions wherein said oligomer engenders a biological response associated with said target in a sequence specific manner

and are generally classifiable in class 514, subclass 02.

- I. Claims 34-40 , drawn to method of treating living cells.
- II. Claims 41-47, drawn to method of treating a mammal
- III. Claims 48-57, drawn to method comprising administering to living cells in vivo.
- IV. Claims 58-64, drawn to method comprising: administering to a mammal.
- V. Claims 65-73, drawn to method comprising administering to a organism.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are directed to related methods. The related inventions are distinct if the inventions as claimed do not overlap in scope, and the inventions as claimed are

Art Unit: 1631

either not capable of use together or can have a materially different design, mode of operation, function, or effect. See MPEP § 806.05. In the instant case, the methods claimed are either have different objectives (e.g., methods of Groups I, II are directed to methods of treatment, whereas methods of Groups III-IV are directed merely to method of administering) or do not overlap in scope (e.g., Groups I, III address administering to cells, whereas Groups IV and II address administering to a mammal or to an organism, respectively). Consequently, a reference teaching, one method (e.g., method of Group III) will not teach another method (e.g., method of Group V).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Borin whose telephone number is (571) 272-0713. The examiner can normally be reached on 9am-5pm.
